Name of food	Grains	Veggies	Fruit	Milk	Meat and beans	oils

The digestive system Complete the information page 50 (listen)

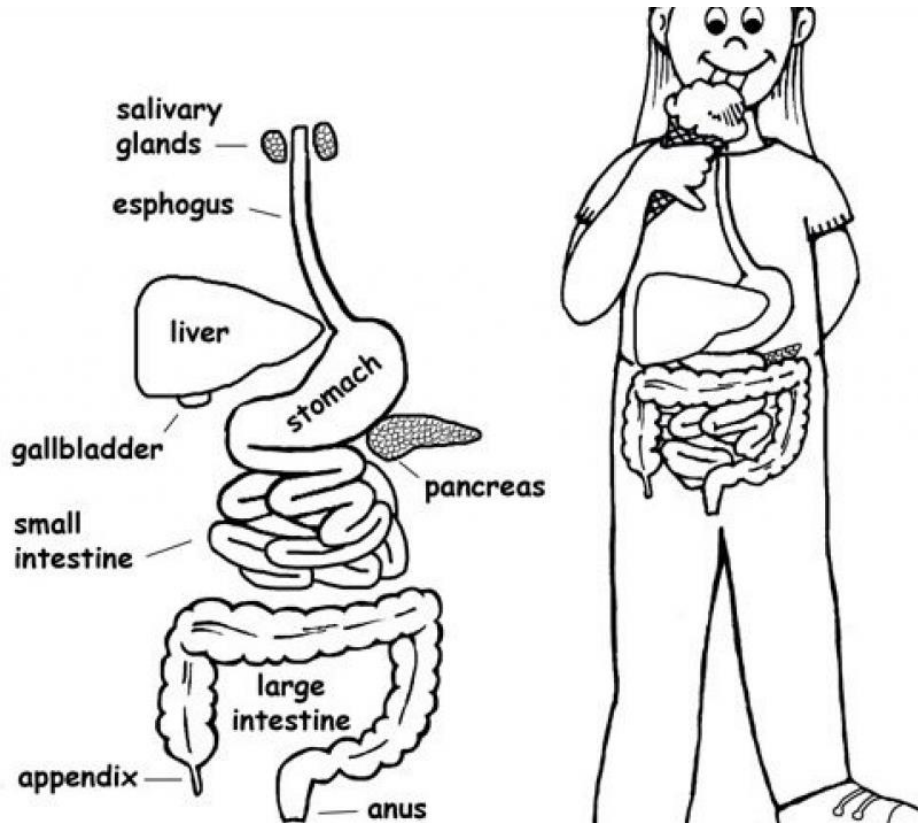

*In your mouth, your teeth_____...

*When you ...

*The ___ mixes the pieces of granola bar...

*The _____ from this soupy liquid pass..

*The parts of the food that your body...

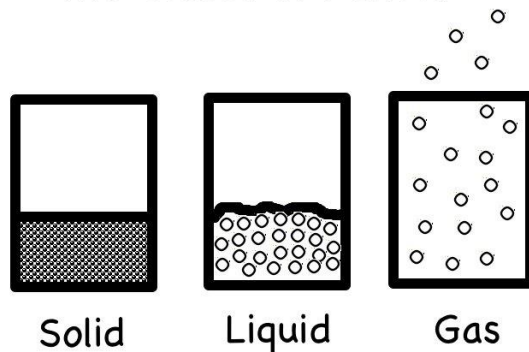

November 24

Read pages 54-55-56-58-59-72.

The human systems are: the mental map page 59

Physical Science

The States of Matter

Definition matter, solid, liquid, gas.

Classify the object: air in the balloon, boy, pencil, river, water, cloud, ruler, helium, dog, oxygen.

Solid	Liquid	gas
-------	--------	-----

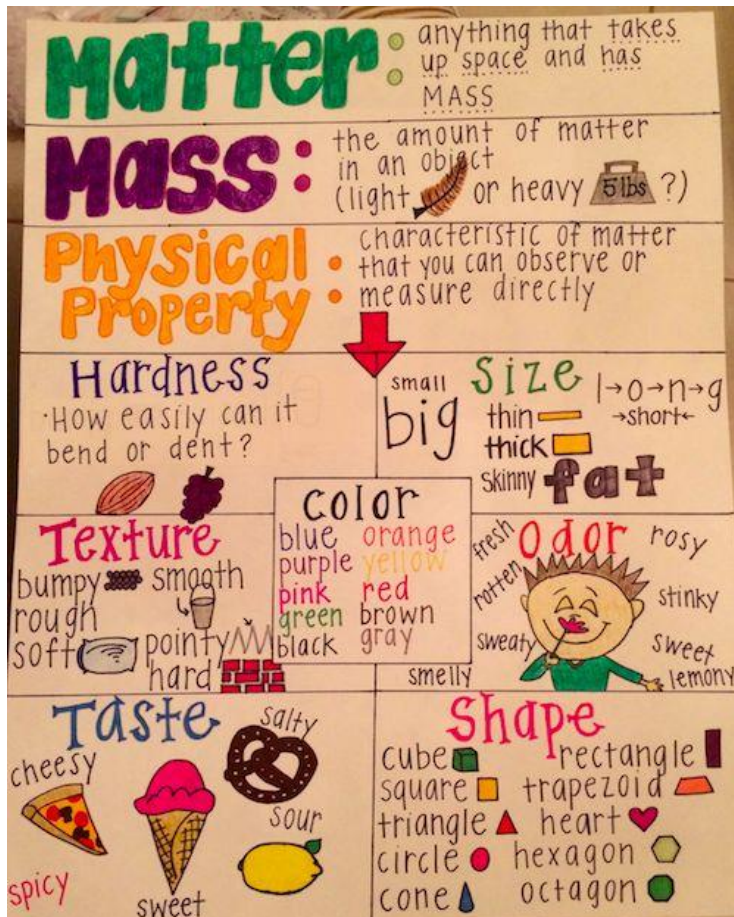

Properties of matter (the mental map) page 72.

NOVEMBER 27

EVALUATION 3

Read pages 73, 74, 76, 77

Properties of matter

Classify the object according to the properties.

Flower, strawberry, butterfly, paper, house.

General properties of matter

Complete the information

*Mass is -----

*Volumen is -----

*Temperature is-----

*A balance is-----

* A measuring cylinder is -----

*thermometer is-----

*Energy is-----

The mental map page 76

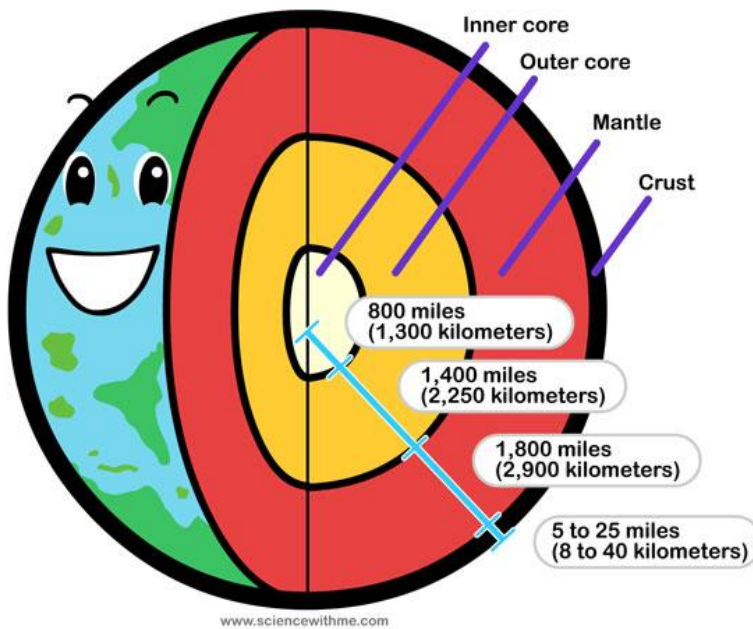

NOVEMBER 28

Read pages 77-78-80

Different forms of energy

Activities 1, 2, 3 page 80

EARTH SCIENCE

Read pages 98-99-100

Complete the chart

	Definition	Characteristics	picture
Moon			
Sun			
Earth			

NOVEMBER 29

EVALUATION 4

Read pages 102-103-104-107-108-109

Weather	Climate
Describes the condition of the air outdoors at a certain place and time.	Average weather conditions of a region year after year
It rained 3 days last week in Nashville, Tennessee.	Texas has long, hot summers.
Yesterday, it was cold and rainy in St. Paul Minnesota.	The Gobi desert gets an average of 7.6 inches of rainfall a year.
It was 85° yesterday in Albany, New York.	It is usually cold in February.
There is a 5 mph wind from the North right now.	The rainy season is from March-June every year.

Complete and draw the atmosphere spheres.

The atmosphere is divided into five layers.
